

Moving Day Appliance Disconnection Checklist

Max Appliance Repair London - Homeowner Moving Guide 2026

The Week Before

1 Measure appliances and doorways

Confirm everything fits through both homes.

2 Defrost the fridge and freezer

At least 24 hours ahead; dry the interior.

3 Book a licensed tech for gas

For any gas dryer or range disconnect and reconnect.

4 Order washer shipping bolts

Reinstall them to lock the drum for transit.

Disconnect and Reconnect Safely

1 Cut the supply first

Power, water, or gas off before touching any connection.

2 Keep fridges upright

Laid down means 24 hours upright before powering on.

3 Fit new washer hoses

A move is the ideal time to replace aging fill hoses.

4 Leak-check on first use

Run a short washer and dishwasher cycle and watch every joint.
